DEAR FCC.

I AM SIGNING THIS PETITION TO ASK THAT THE LICENSE RENEWAL OF KOKS RADIO STATION BE GRANTED. I BELIEVE THAT KOKS HAS OPERATED IN THE TOTAL INTEREST OF THE PUBLIC SINCE THEY HAVE GONE ON THE AIR. I BELIEVE THEY OFFER A MOST UNIQUE AND VALUABLE SERVICE THAT NO OTHER STATION IN THIS AREA OFFERS, AND I SINCERELY BELIEVE IT WOULD BE A DIS-SERVICE TO THE ENTIRE COMMUNITY IF KOKS LICENSE IS NOT RENEWED. AGAIN, I BELIEVE IT WOULD BE A DETRIMENT TO OUR COMMUNITY AND THE SURROUNDING AREA IF KOKS IS NOT ALLOWED TO BROADCAST.

RE: Noncommercial Educational FM Broadcast Station, KOKS, Poplar
Bluff, Missouri

Dear Ms. Searcy:

Pursuant to Program Test Authority granted by the Commission on September 27, 1988, Calvary Educational Broadcasting Network (CEBN) has been operating the above-referenced noncommercial FM station since October 4, 1988 from the hours of 2:00 a.m. to 6:00 p.m. every day.

On October 23, 1988, the station's antenna caught fire, and one of the antenna bays was severely damaged.

After a short period of time off the air the station resumed broadcast operation at one-third the stations's authorized ERP of 100 kW, and has continued broadcasting its regular schedule of programming at reduced power.

The damaged antenna bay has been removed and sent to the manufacturer for repair. CEBN has been informed that the antenna will be delivered to the site within ten (10) days. Assuming that the repairs were effective, CEBN anticipates resuming operation at full power within two weeks.

Pursuant to section 73.1560(d) of the Commission's rules CEBN will continue to keep the Commission informed of any changes in the ERP or any further delay in its plans to resume full power operation.

RE: Operation of KOKS(FM), Poplar Bluff, Missouri, on
Program Test Authority

Dear Ms. Searcy:

Calvary Educational Broadcasting Network (CEBN) through its undersigned counsel and pursuant to section 73.1560 of the Commission's rules and regulations, hereby notifies the Commission that, since late October, it has been operating its facility at roughly 50 percent of its authorized transmitter output power of 35 kW. This reduction in power was necessary to assist in the resolution of the many complaints the station has received concerning alleged blanketing interference from residents living close to the station's transmitter site. These complaints have caused an extensive correspondence with the Commission's Field Operations Bureau office in Kansas City.

During the last week of November, the station increased its power to roughly 86 percent of authorized transmitter output power.

On December 23, CEBN discovered that its coaxial cable had been shot several times. Gas leakage in the line reduced output power to approximately 79 percent of the power authorized.

CEBN respectfully requests authority to continue operating at a transmitter output power level marginally at variance with the 90 percent minimum required by Commission's rules until its coaxial cable is replaced and, subsequently, pending resolution of the remaining complaints concerning the station's alleged blanketing interference.

Dear Mrs. Raines:

We received copies of your letter and the attached complaints on December 27. Accordingly, Calvary Educational Broadcasting Network (CEBN) will be submitting a progress report as you requested on or before February 10, 1989.

Following the receipt of your letter I checked with my client, and should correct my letter of December 6, in which I represented that a recent complainant, Ray Pennington, had been contacted and complained of interference only on Channel 6 (see page 2). I was informed that Mrs. Stewart contacted Mrs. Pennington on the evening of December 5, and was informed by Mrs. Pennington that they were receiving interference only on Channel 6. Mr. Pennington was not contacted, and Mr. Pennington is the source of the complaint. I have instructed my client to contact Mr. Pennington personally, and in the future to respond to complaints by addressing the complainant directly, rather than a spouse.

I have also asked my client for "updates" on their response to the complaints of Mr. & Mrs. Smith and Mr. Hillis, and will provide that information to you as soon as it is provided to me.

I have repeatedly advised my client to keep detailed logs of telephone contacts with complainants', of visits to complainants' homes, and of attempted and unsuccessful telephone calls.

However, as you know Calvary Educational Broadcasting Network is a nonprofit, noncommercial entity, its staff is small, consisting almost entirely of Mr. & Mrs. Stewart. Mr. Stewart is the proprietor of Stewart Eggs. This is the first station that either Mr. or Mrs. Stewart has ever operated, and they are operating the station with a largely volunteer staff.
